No Kidding: Inside the World of  
Teenage Girls.

No Kidding presents 12 honest, and at times unsettling, individual accounts of life as a teenage girl in Canada in the 1980s.

Theme chapters, like the individual girls, reveal the degree to which 20 years of the Women's Movement have influenced the everyday lives of teenage girls today -- and the revelation will astonish many readers.

This is an invaluable book for caring parents who want to understand their children and for teachers, social workers and anyone who knows or deals with teenagers. Insightful, entertaining and at times disturbing, No Kidding provides an inside look at a world from which most adults are excluded. There is simply no other book that takes us into that world. In reading Myrna Kostash's pioneering book, complete with a brave chapter from her own teenage diary, you can count on being shocked, surprised and informed.
